Hi all – GDIT 508'd the charge (attached). I provided it to Maureen for posting. I'll provide these files to Antoinette to add to the STICS record for the ERD.

@Bateson, Thomas I moved the footnotes to after the period. The layout of the document is a bit wonky, but I think it is ok. Let me know if there are any other comments. I spoke to Maureen and she knows this is coming this afternoon.

Here is a clean and renamed document. Can you all quickly look at the footnotes and see if they read well (Tom had flagged that the first one was a little muddy, and to the second one I suggest this minor addition: **Ex. 5 Deliberative Process (DP)**)

Ex. 5 Deliberative Process (DP) If no heartburn with these, Dahnish we should be good to go. [note: I found two places in the TR where "relevant exposure circumstances" was missed, but the phrasing was changed elsewhere and throughout the overview so hopefully those misses won't draw attention.

Anyway, Dahnish, can you please tidy it up and put it on the website and in the docket, sending the note to NASEM with all the links when the website link is ready?

Hi Kris,

Andrew and I have edited the Charge and would like you to look it over. I've included a tracked changes version (w/o comments). I have also included a version with the comments if you want to see the discussions that informed the changes.

Once the text is finalized, Danish will take care of the 508 and our goal is to post the doc to our website and (perhaps later) the docket. [See email from Danish below]

Yeah, maybe we point to the TO when we ask them to add it to the list provided to the panel.

I think Tom is sending our minor edits to Kris (and Sam as optional) for review later today, so hopefully we can turn it around in time.

Thanks for doing this while multitasking in Cincy!

Tomorrow COB should be the target I think Andrew. We do have to 508 the document, but since the document is short I think we can turn it around pretty quickly. We should also add the charge to the list in my opinion. The contract language in the TO is pretty clear. Let me know if that is an issue.

It looks like the first meeting is Thursday, so our timeline for putting up a slightly revised final charge shrank. Since they didn't include the charge Qs in their list below (which I find fundamentally problematic, but will let go), it should be straightforward to post the doc to our website and (perhaps later) the docket, then ask them to add the charge to the list below (our deadline might be tomorrow?).

Hi Dahnish,

Thanks so much. We hope to confirm the in-person meeting date soon, and look forward to receiving a courtesy compilation of the public comments.

The committee will meet on Thursday (September 1). Regarding the assessment, we plan to share the following links with the committee, but do let us know if there is further information or any corrections:

- EPA's formaldehyde [assessment](#) (as well as an [overview](#) and [supplemental information](#)) may be found under "Download(s)" at the following link: https://cfpub.epa.gov/ncea/iris_drafts/recorddisplay.cfm?deid=248150.
- Public comments received on EPA's formaldehyde assessment may be reviewed using the Docket ID [EPA-HQ-ORD-2010-0396](#).

Thanks again,

Kate

Hi Kate - I've held October 12 and 13 on our calendars. Please let us know once the date is confirmed.

We will provide the courtesy compilation of comments in early September. In addition, we also heard that it has been hard to find some of the assessment files and relevant URLs. We will provide all of that information to you before the committee meets on Friday.

Hello Dahnish,

For the first in-person meeting of the committee, we are now exploring October 12 (full day) and 13 (half day).

Please do let us know when we may expect to receive a compilation of the public comments received, so that we may inform the committee accordingly.

Best wishes,

Kate
